The Washington Merry-Go-Round

Washington.—Elder Statesman Bernard M. Baruch has worked out a formula for handling the atom bomb which may resolve other international problems. He hopes, by his formula, to persuade the Russians to drop their veto power over

every step the United Nations tries to make. This has been the greatest single handicap to future world peace.

Baruch plans to propose that the atom be placed under an international committee-provided no member of that committee shall have a veto. Decisions must be made by majority vote.

Since the Russians are beside themselves with eagerness to be a member of any committee controlling the atom, they probably will accept this nonveto provision.

If so, Baruch hopes to use it as a precedent to show the Russians that the veto power should be dropped in regard to all U. N. problems. -NORTH CAROLINA STATESMAN-

Freshman Senator Clyde Hoey of North Carolina likes to preside over the senate when McKellar of Tennessee is ill or when other opportunities occur.

And he makes a most imposing figure in the chair. A former governor of North Carolina, Hoey wears a swallow-tail coat and the flowing bow tie of the old-fashioned politician. He looks every inch a However, there is one important detail

which the senator from North Carolina overlooks as he sits on the rostrom presiding over the world's most important deliberative body. He forgets that newsmen just above can look down from the press gallery and see what he is reading.

An believe it or not, during the crucial debate over the Truman labor bill, carrying history-making draft-labor provisions. the senator from North Carolina was surreptitiously reading a comic book!

1115 Ludington St.

* Four thousand years ago, practitioners of the healing arts were impelled to organize in order to shield the public from the impostures of quacks and charlatans. Similar organizations have been carried along the current of history to the present day. Today the great national associations of physicians, pharmacists, dentists, and nurses work separately and harmoniously to keep

educational standards high, the impostors out.

You cannot exercise too great care in securing the advice of those whose ethical concepts inspire trust and esteem. When ill, consult a registered Doctor of Medicine. If medication is needed, bring your prescription to us.

1107 Lud. St. - Phone 288

Escanaba, Michigan

DO YOU WANT ANOTHER 3% TAX PUT ON YOUR PAY CHECK?

Do You Want a Government Bureau to Decide What Medical Care You Need When You Are Sick?

TNDER a so-called National Health Act of 1945 introduced in Congress by Senators Wagner, Murray and Representative Dingell, proposal is made to take away your right to select, without hindrance, the doctor you want to treat you. Instead, the Act offers the services of whatever government doctor isn't busy - and makes you pay for his advice by taking a new 3% from your paycheck. If you don't use the government doctor you still have to pay at least 3% of your wages for his support and for the cost of administering the plan.

THE TOTAL YEARLY COST OF THIS WAGNER-MURRAY-DINGELL BILL IS ESTIMATED AT \$4,000,000,000.00.

Right now, without any four thousand million dollar Act, your family doctor is available 24 hours a day to treat you. He is well trained He knows you personally. And, if you don't like what he prescribes, you can get a different doctor! If you want to continue to choose your own doctor without red take If you want the best health care that medical science and personal service can give you - urge your Congressman to vote against the Wagner-Murray-Dingell Bill.

U. P. Planning Institute Will Be Held In Escanaba June 10-11

GOVERNOR WILL SPEAK MONDAY

35 Experts Will Take Part In Panel Discussions

The eighth in a series of local planning Institutes sponsored by the Michigan Planning Commission and local governmental bodies in as many areas of the state will be held in Escanaba Monday and Tuesday, June 10 and 11, for city and county officials and representatives of civic organizations throughout the Upper Peninsula.

The first in the series was held in Jackson last July followed by Institutes in Kalamazoo, Alpena, Traverse City, Mt. Pleasant, Detroit and Port Huron. The series will end with an Institute at Grand Rapids sometime in the summer. Enrollment has averaged more than 200.

The faculty for each institute is made up mainly of city and county planning experts of the University of Michigan, Michigan State College and several city planning commissions, and authorities on special phases of planning from several state departments, their services contributed by these agencies.

At Escanaba, for the first time in the series, periods will be set aside for individual consultations On both afternoons the approximately 35 experts will be at tables in the junior high school gymnasium for individual visits with all who may wish to take up problems in their special fields.

Morning and afternoon meet-ings will be held in the Junior high school, the two luncheon meetings will be at the Immanuel Lutheran church and the Monday evening banquet will be at the

ATOMIZED COAL IS ENGINE FUEL

Fuel As Fine As Powder Burned In Boilers Of Locomotives

By MAX FULLERTON Baltimore, June 8(AP)-A revo-

lutionary type of coal-burning locomotive which its sponsors predict will surpass the mighty Diesel soon will be given its first test on

This locomotive will be powered by a gas turbine burning coal dust as fine as talcum powder. The builders say the new tur-

bine will enable railroads to run their giant engines with "atomized" coal at a lower cost than with the oil-burning Diesels.

The Locomotive Development Committee of Bituminous Research, Inc., financed by subscription of around \$1,000.000 from six railroads and three big coal companies, is far enough along with its work to say with finality that the new style propellant method works. Actual tests probably will be held some time this summer.

Ray B. White, president of the Baltimore and Ohio railroad and chairman of the Development

Maryland engineer-physicist who says that virtually all steps in crebeen worked out and experiments now are confined to elimanting a Bear Kills Bull few last "bugs."

In bringing the coal-powered gas turbine into being, the research group had to solve three

rators will remove 85 per cent of the ash and what is left will amount to less than half of the would meet its plant requirements ba; Anton Olson of Wilson; Folinstance, under the Baltimore was assured.

Menominee May Have Powdered Milk Company

Menominee - Location in Mehich would require about 720,000 gallons of water a day for operation of its cooling system was un der consideration today of Mayor Otto R. Eickmeyer and the board of public works after the mayor d the proposal before the boar session last night.

The 720,000 gallons presents from one-third to onealf of the daily capacity of the Menominee water works and from a safety viewpoint could not be handled without a substantia plant expansion. However, the city agreed to provide the water on a 60 to 90 day temporary basis pany of its own water system. The company, known as the

Rolly Polly Cheese company, subsidiary of the Consolidated Products company of Danville, Ill., was by George E. Hedger, secretary of the Menominee Chamber of Com merce. E. W. Adams, representing the Danville company, was iv Menominee earlier this week are expressed belief that the property of the former Michigan Electro Chemical company, opposite the Lloyd factory and now owned by Furton Brothers and the Menom inee Auto Salvage company

Don't Say 'Grease Job' ---Say SHELLUBRICATION"

It's The Modern Upkeep Service

When you drive into our Lubritorium and ask for a grease job, we will give your car SHELLUBRICATION. There's a difference. We not only grease your car thoroughly, with the proper kind of grease in the right places, but we give special attention to other details as well. This includes lubrication of door hinges, checking of tires and battery, window washing, and many other so called details. SHELLUBRICATION gives your car modern upkeep. Drive in-today.

AND WITH HIGHWAYS CALLING, and gas galore this year, you can fulfill that yearning for the vacation you've waited for.

BUT HOW DOES YOUR CAR FEEL ABOUT IT?

How did the sluggish, slow driving years of gas rationing affect vital parts? Is the motor choked with crank case sludge? Will the brakes hold? Will the steering gear keep you on a straight course? How is the cooling system, carburetor and ignition? When you START you'll want to GO. Drive in now and check up with the "home folks". We want you to get back safely.

"Except Ye Become As a Little Child-"

Today is Children's day-a custom designed to emphasize the important part little children play in our church and national life. We have much to learn from them. Too long a proud and arrogant world has ignored the Christian injunction to "become as a little child."

Clique Wants King To Stay In Italy, Official Declares

Rome, June 10 (A)-An under secretary in Premier Alcide De Gasperi's cabinet declared tonight announcement of the republic's victory in last week's plebiscite.

The spokesman, Giuseppe Spataro, a Christian Democrat and undersecretary of the interior, said the monarch was willing to accept the high court's announcement and leave the country but that people around him were "arguing that it is his historic duty"

Spataro said the king was meeting at the Quirinale Palace with his counsellors. The cabinet would await word of the king's final decision before taking action itself, the undersecretary contin-

ment, Giuseppe Romita, minister an Upper Peninsula-wide pamof the interior, emerged from a "everything is up in the air."

Breakfast Cereal Price Increases Are Announced By OPA

Washington, June 10 (A)-OPA today authorized higher prices for three kinds of breakfast cereals t compensate for increased grain costs and a productoin cut resulting from famine relief re-

lief requirements. The increases, effective June 14, apply to cornflakes, puffed wheat

OPA said that for popula sizes boxes, housewives will pay up to three cents more for an 11 ounce package of cornflakes, for example, one cent extra for a 4ounce package of puffed wheat and one cent on a 41/2-ounce container of puffed rice.

EAGLES INSTALL NEW OFFICIALS

Emblem Day Observed By Initiation Of Special Class

The Fraternal Order of Eagles begins its new fiscal year with the first meeting in June when Emblem Day is observed. Emblem Day is the 20th day of June, but Escanaba Aerie will observe the day this evening, June 11, when the new officers will be installed. The officers to be installed are Arthur Servant, worthy president; John DeChantel, worthy vice president; Werner A. Olson, secretary; Stuart Fry, treasurer; John Berish, conductor; John Parins, chaplain, and George Walker, trustee.

Following the installation of officers a special Emblem Day class of candidates will be initiat-They are as follows; Henry Couillard, Gladstone; Charles A. Smith, Trenary; Paul E. Smith, George T. Snyder, Escanaba.

Analyzed

BY MARQUIS CHILDS

Washington-It is revealing of the man at Bellaire, Mich., Friday, Saturday and that although his full name is Frederick Moore Vinson, even the stately New York Timez in announcing his appointment as Chief Justice of the United States called The annual gathering of MUCC is him Fred Vinson. That is a small bit of evidence of the new

Childs

nelped him to succeed in wide variety of jobs. Since 1937 when he left the U.S. circuit court of appeals for the District of Columbia, Vinson has been dropped into one roubled spot after another. And he usually managed to resolve the

hief's human qualities.

Those qualities have

trouble. Once President Truman had heeded the earnest advice of those who urged him to was disclosed in this column more than a more suitable selection, all things considered, than the Kentuckian who has long been known to his friends as Judge Vinson. Several distinguished Republican lawyers were urged on the President. One of those recommended was Thomas D. Thacher, who has held many distinguished offices and is now a judge of the New York State Court of Appeals.

-DISHARMONY IN COURT-But the President ignored the argument for political impartiality in supreme court appointments, an argument that has little basis in history in any event. Moreover, could not be labeled a "liberal," the squawk from the labor wing of the Demo-

Judge Vinson will need all his human qualities in the new assignment. Of the trouble centers he has been named to calm, none was more tempestuous than is the court today. The diverse personalities put there by President Roosevelt, with an almost impish disregard for the stability of the institution, have carried their internecine warfare beyond the bounds of the old battles between "conservatives" and "liberals."

cratic party would be loud and long.

No one would expect the new chief to achieve the miracle of unanimity. The conscious of food shortages-not night, the Escanaba Lions club ject not involving extended re- construction, rather than veterans. He has right of individual justices to dissent with only here but throughout the elected Gust Asp president, Hazen search. Legal or medical advice taken the matter up both with Phesident rigor and forthrightness is one of the great traditions of the court. The Washington Merry-Go-Round

BY DREW PEARSON

Washington .- A meeting of the combined food board was in session. This is the board on which sit the representatives of foreign countries to decide how much famine relief grain shall be sent to each

Belgium had just been granted an additional allocation of 160,000 tons of wheat, presumably, to feed its starving children. However, toward the end of the meeting, the

French delegate leaned over and said something to the Belgian delegate. He talked in a low voice in French. What he proposed was a swap whereby Belgium traded her

160,000 tons of wheat with France in exchange for French wine. The Belgian delegate agreed. So now the children of Belgium will not get the 160,-000 tons of wheat-unless the gentlemen involved get worried over this column and change their minds.

They will also, of course, deny this story. But the French and Belgian delegates made one mistake. They did not know that an American member of the combined food board seated beside them understood French.

-HOT HOUSING-

The budget bureau has written a secret report on housing for veterans which is so hot, it sizzles. It shows that despite all the fine pronouncements about homes instead of fox-holes, certain government agencies have permitted scarce building materials to go to race tracks, country clubs and nonessential commercial construction, while veterans are left in the lerch.

The report points a finger squarely at the civilian prduction administration (John Small Administrator) as the guilty

SAYS PLANNING IS VITAL NEED

Good Community Living Must, Connor Points Out

Planning is basic to good community living, Edward D. Connor, executive director, Citizens' Housing and Planning Council of Detroit, declared at yesterday's session of the local planning institute at the Junior high school.

"It is in the interest of all the people," said Mr. Connor. "It affects and has value for the industrialist and businessman, industrial worker and farmer, home owner and renter, young and old, rich and poor. It is of concern to the invidual and it is vitally important to all groups."

Continuing, Mr. Connor said: "This is true because planning done in terms of the needs, interests and desires of people, forms and shapes-if carried out-the basic environment in which we live. We shape our environment -but just as truly our environment shapes us. Through planning, those things which are good in our communities can be preserved. Through planning, those for agriculture. Eighteen counties things which no longer serve us satisfactorily may be corrected, and through planning, those he said. things which are detrimental to our health and economy may be J. Gordon Hough eliminated. In a word: effective planning carried out and put into action preserves and increases the values of our communities. It means more health, more recreation, saved time, saved money, less costs, more jobs—better living J. C. Penney store at Iron Moun-

strong citizen interest and participation are needed, first to help analyze the problems facing the community, second to plan programs to meet these problems, third to carry out the plans. Analysis and plans cannot be carried out by individuals acting alone. Community planning should be part of the program of every community organization, whether it is social, fraternal, business or is social, fraternal, business or what not. After all, regardless of its primary purpose, every organization has a strong interest in the welfare of its own members. the welfare of its own members, the Iron Mountain - Kingsford pointed out, could grow to subthe welfare of its own members, and the future of every organization is inevitably bound up with the future of the community in which it functions. It is also necessary that there be an organization of citizens whose primary interest and only program is to serve as a channel through which the people of the community can participate in the planning process. participate in the planning process. In other words every community needs a strong, effective munity needs a strong, effective dent of the county branch, United dent of the county branch, United and the planning "

for more owners...

Stockholders 185,744

Stockholders 242,176 (an all-time high)

How well did General Electric meet its objectives last year?

GENERAL ELECTRIC has a three-fold responsibility—to the public, to its employees, and to its owners. The 1945 annual report, just printed, gives some indication of how well we met these objectives last year.

General Electric's growth has come from new and better products for the public, continuously improved.

Out of production efficiency have come higher wages, increased jobs, and the earnings needed to continue these gains.

This year General Electric did not get off to as good a start as in 1945. But the objectives and aims of General Electric are the same and will continue to be the same—to keep wages as high as possible, to keep prices down as far as possible, and to earn a fair profit.

For a copy of General Electric's Annual Report and Yearbook for 1945, write Dept. 6-237, General Electric Company, Schenectady, N. Y.

GOOD HIGHWAYS **NEED PLANNING**

Cruise Says Public Is Best Served Through Joint Program

Local planning agencies can enwhich will not encroach on highway traffic and safety, and help maintain "the fine characteristics of Upper Peninsula highways, J D. Cruise, assistant director of planning and safety, state highway department, said yesterday in connection with the Local Planning Institute held here. Cruise participated in the county-rural round table discussion.

Cruise said that rural highway planning involves two viewpoints and phases of procedure, the systematic selection, designation and improvement of road systems and the control of public and private development along the roadside for the preservation of the investment in safe and efficient high-

federal Public Roads Administration. They work together in the selection and designation in road systems of the highways that best serve the basic economic and social interests of the county to the end that a long-range program of highway improvement can be arranged and carried out, he said.

The county road commissioners and the state highway departand the state highway department do not have the legal means day were:

The first of several lessons is to be given this evening at 7:30 o'clock in the high school gymnasiu under the direction of Miss Alice Dehlin, who served with the By William Ferguson Waves during the war.

NO LONGER NEEDS

Famous Cereal Brings Constipation Relief

Constipated? A slave to harsh laxatives? Read this sincere, unsolicited letter. It may bring you the help you need!

"No one knows better than I how won-derful KELLOGG'S ALL-BRAN is. Before I started eating it regularly every morning. I had to take laxatives almost every day. But now, take my word for it I never take such medicines." Mrs. F. G MacDanel, Route 1, Box 370, Abbeville, La.

Think of it! You, too, may never have to take another harsh laxative for constipation due to lack of bulk in the diet, if you eat one ounce of KELLOGG'S ALL-BRAN every day, and drink plenty of water. Do this for ten days, and then if not completely satisfied, send empty carton to the Kellogg Company, Battle Creek, Michigan. You will get double your money back! ALL-BRAN is not a purgative. It's a wholesome cereal providing gentle bulk helpful to normal laxation. Eat it as a cereal or in muffins every day.

Get ALL-BRAN at your grocer's. Made by Kellogg's of Battle Creek and Omaha.

JUNE IS DAIRY MONTH

Emblematic of peace in a peace loving nation, and quietly remindful that dairying is America's greatest industry, the poster pictured above has been chosen as the symbol of June DAIRY MONTH for 1946. It's a familiar scene, as American as the Stars and Stripes. A herd of cows, peacefully grazing over green fields, cows that never heard the roar of hostile guns, that never saw the ravages of war. Such a scene, somehow, symbolizes the American love of peace, home, and
